This recording module is a high-performance audio recording solution with excellent sound quality and versatile applications. It employs advanced digital signal processing technology to capture clear audio, making it suitable for various applications such as voice memos, speech recognition, electronic toys, and more. The module is compact, lightweight, easy to integrate, and user-friendly, making it an ideal choice for implementing audio recording and playback functionalities. With this recording module, you can effortlessly add sound features, bringing more creativity and interactivity to your projects or products.

Model	Duration
QH8402	20 seconds
QH8406	60 seconds
QH8412	120 seconds
QH8424	240 seconds

Product Size: 150*90*25
Weight(including the package): 58.6g
Packing box size: 200*160*50mm
Package weight: 200g
